WARRANTY EXCLUSIONS. The warranty stated herein is void if the product has been modified without the WRITTEN permission of Computer Corner, Inc. or if any serial number has been removed/altered and/or the warranty seal is broken. Product failures resulting from misuse of product, electrical surges, lightning or other “Acts of God” are not product defects, and the repair or replacement of products under these circumstances is not covered by warranty. Computer Corner, Inc. is not responsible for repairing or replacing system files or other software files on a system on which illegal or “pirated” software has been installed. Computer Corner, Inc. shall have no obligation to enhance or update ANY UNIT once the unit is built and prepped for delivery. Service performed, including travel time, that is not covered by warranty will be billed to you at the current service rate.

- a. **Data Integrity.** When reloading the Operating System on your computer, Computer Corner will back up the data we reasonably can from your computer and return this data to a folder labeled “OLD HARD DRIVE”, located on the desktop, or on external media, as requested by the customer. Computer Corner may not be able to backup all your data, and, in some situations such as a failed hard drive, data backup may not be possible. **COMPUTER CORNER IS NOT RESPONSIBLE FOR YOUR DATA.** Please see our Service Guide, located at <http://www.compcorner.com/legal>, for more information.
- b. **Data Backup.** Computer Corner, Inc. is not responsible for damage as a result of accidents, misuse, or abuse of equipment. Computer Corner, Inc. is not responsible for lost data or files. Data backup should be performed by all computer users on a regular basis.
- c. **Virus and Malware Removal.** After we have removed viruses and/or malware, the utmost care should be taken to prevent reinfection. We strongly recommend the installation of a reputable anti-malware software program. We are happy to install our recommended program with purchase at time of malware service. Reinfection virus removal service is not covered under warranty. Reinfection typically results from the user performing an action such as opening an infected e-mail or attachment or downloading a file that is infected. Please do not operate your computer system without anti-virus protection, open e-mails from unknown sources, or download files without first scanning them with your anti-virus software.

ABANDONED PROPERTY. All articles left for computer service or repair that are not retrieved within thirty (30) days from service date, will be subject to a daily storage fee of \$2.50 per day. After three (3) months from service date, abandoned articles will be disposed of according to Computer Corner’s discretion, pursuant to Sections 48-3-22 through 48-3-27 NMSA 1978.
